REPORT OF THE IASSW SECRETARY

MEMBERSHIP INFORMATION

Information on membership (30th June 2022)

According to the membership list kept by Rashmi Pandey, Executive Officer, as of June 30th, 2022, the IASSW had **278 Institutional** members, **127 Individual & Life** members) and 2 **Affiliated** members **(407 in total)**

The IASSW Board meeting will be held in Brazil in Latin American region in July 2022. As of the end of June 2022, IASSW has two School members and three Individual members from this region. We hope, after the Board meeting, many schools will join IASSW and strengthen the region, connections between the regions and global social work education.

We continue to find that personal contact and encouragement is the key to retaining and engaging members. This personal contact and encouragement needs to come not only from the President, Secretary, Treasurer and Executive Officer, but also from the Regional Vice Presidents and Members of the Board of Directors.

Administrative concerns

Membership invoices were sent at the end of 2021, reminders were sent, however, members did not renew. Before the Board meeting, the Secretary sent reminders to each Board member, whose schools had not renewed membership or they were not individual or life members. Some Board members joined as an Individual members, and some Schools renewed their membership.

This process of invoice and reminder with little renewal is challenging and problematic for the association. It is the responsibility of each Board members to know if their school is a current member or they hold individual membership. It should not be the responsibility of the Secretary or the Executive Officer to remind Board members to renew their membership.

Rashmi, Executive Officer, offers a strategy. In February of each year, Board members will check with her to confirm that their school has renewed their membership or that they are current individual members for that year.

Barbara, Secretary, offers a strategy. Board members renew as life members. This will ensure that their membership is current and they are not dependent on their school for renewal of membership to legitimize their position as Board members.

As noted in previous reports, the continual decline in both individual and school membership is a major concern for IASSW. As our operating budget is depended on the generation of dues, we must attract and retain members if we are going to continue to fund our committees at a viable level. Each Board members must do their part in attracting new and retaining members from their regions. We all must personally reach out to colleagues to encourage their participation in IASSW.
