First of all we would like to report about the Joint World Conference on social work education and social development sponsored collaboratively by IASSW and ICSW held on October 26-28, 2022, in Seoul, South Korea.

The conference, in hybrid mode, was opened with remarks from Dr. Sang-Mok Suh, President of the International Council on Social Welfare and myself. A congratulatory message was delivered by Kyoo-hong Cho, Minister of Health and Welfare, Republic of Korea.

Two plenary lectures were delivered. The first by Dr. Gloria Kirwan from the Graduate School of Healthcare Management, Royal College of Medicine and the second, the Katherine Kendall Lecturer, by Dr. Julia A. Watkins, Co-director of the Southeast Europe Academic Women's Leadership Initiative. Four special lectures were also delivered by Sang-Mok Suh, Neil Gilbert, Chaime Marcuello-Servos and Darja Zavirsek, the Eileen Younghusband lecturer. During the Opening Ceremony, I presented to Dr. In-Young Han, an award from IASSW in appreciation for her long-time service and commitment to our association.

IASSW extends it heartfelt thanks to the local management committee, the global management committee (Annaline Keet, Alexandra Mustafa and Junko Wake representing IASSW) and the scientific committee for organizing and putting on this amazing world conference.

All sessions were recorded and broadcasted synchronously. Over one hundred and twenty-seven presentations, workshops, and posters were delivered on day two with several hundred presenters. The range of topics was extensive, all contributing to the consideration of social work education and social development post-pandemic.

On day two, IASSW and ICSW held a book launch featuring two books, *Remaking Social Work for the New Global Era*, edited by Tiong Ngoh Tan and P. K. Shajahan. This book was the product of work completed for the Rimini World Conference that was cancelled due to COVID. *Digital Transformation and Social Well-being: Promoting an Inclusive Society* edited by Antonio Lopez Peaez, Sang-Mok Suh and Sergei Zelenev was also launched. Two books *The Origins of Social Care and Social Work: Creating a Global Future and HIV, Sex and Sexuality in Later Life* were presented by Mark Henrickson.

The final day of the conference included a field site visit to the Social Welfare Corporation Angel's Haven which cares for children, people with disabilities and also provides services to the elderly in the community.

Delegates traveled to Seoul from many different countries and all indicated their appreciation of returning to in-person meeting to strengthen old relationships, build new ones and have the opportunity to collaborate and network with like-minded colleagues.

SWESD 2022 Seoul was a major success. All involved celebrated the accomplishments. We are looking forward to the next tripartite world conference to be held in Panama, April 4-7, 2023. I hope to see you all there!

Since launching of the revised Global Standards, IASSW has disseminated them through workshops, webinars and conferences. IASSW has convened a Task Force of thought leaders to develop ways to support the adoption of the standards as a framework for social work education across the globe and IASSW plans to work with schools in different part of the world to implement these standards to achieve excellence in social work education, grounded in deep respect for cultural and regional contexts.

Thanks to Angie Yuen, we have in progress an agreement with Department of Applied Social Sciences (APSS) represented by prof. Eric Chui to have a three years free support in delivering an online learning platform on the IASSW Global Standards for Social Work Education and Training for international users, particularly for users in the developing countries. Our online learning programme team is chaired by Varoshini Nadesan.

During the last six months IASSSW organized three webinars in conjunction with the different UN world days. Here are all videos available: [1079] IASSW Communications - YouTube

We need more volunteers to present and of course this material, that will be stored in our website, can be useful in teaching, so we are inviting you all to disseminate and utilize it.

Another important initiative that has been undertaken is the Letter of Understanding signed in March with the association Power Us, an international network of teachers and researchers from schools of social work and representatives from different service user organizations. We are now in the process of planning different webinar (Jenny is in contact with the organization) to spread the ideas of the importance of involving and cooperating with representatives of service users in our education and research.

IASSW Membership Committee has launched Student’s membership in March 2022. Student’s membership fee is 20 USD for all students across the world. We are very excited about welcoming students, particularly doctoral students, into our global network. Student member will get all the benefits of membership. Orit Nutman and Alex Altshuler have submitted Israeli National Representatives Board Members Summary which include all activities.

Hosted by University of Malaga, organized jointly with ICSW and UNED.

December
20 Speech on international dimension of social work at Florence social /health services organization

I would like to finish my report with the best wishes to you all and your families. With the hope that the new year will bring peace around the world. As Albert Einstein said “Peace cannot be kept by force, it can only be achieved by understanding”, and I also would like to remember a quote from the Nobel Price Jane Addams “True peace is not merely the absence of war, it is the presence of justice.” I hope that our association can contribute to that.

I look forward to your feedback on my report and I hope that in January Board Meeting we will have fruitful discussion while meeting face-to-face with some of you.

Respectfully submitted
